Volunteers

SLO COUNTY

The Family Care Network Inc. will celebrate National Volunteer Week April 15 to 21.

The group asks for mentors — who will help achieve the network's mission of enhancing the lives of children and families — to commit to a yearlong relationship with a child and reach out to those in need of a healthy adult influence.

The Family Care Network serves more than 1,300 foster and in-need children and families per year through multiple programs, including mentoring. It began recruiting mentors in 2001 and has trained more than 80 mentors in the past six years.

For more information on the mentoring program and volunteer opportunities at the nonprofit organization, visit www.fcni.org or call 781-3535.
